UNITE AS ONE

I am 1 of a million people living in South Africa who

Says **YES** to: humanity, peace and unity
Says **NO** to: racism, ignorance and violence
I promise to confront ignorance with knowledge; prejudice with tolerance; and isolation with the outstretched hand of generosity.
I will

- celebrate the common humanity of people and our shared heritage as Africans
- recognise and protect the human rights of all people living in South Africa, no matter their language or country of origin
- attempt to prevent any acts of xenophobia – intolerance, intimidation or violence; and to report to the police if any person violates the rights or safety of another
