

## HERITAGE DAY : 24 -25 September 2023

- CoRMSA recognises and celebrates the cultural heritage of different South African, asylum seeker, refugees and migrant cultures. CoRMSA takes this opportunity to join forces with the communities at large and relevant authorities in promoting Social Cohesion and upholding the Constitutional mandate to respect human rights regardless of one's origin, nationality, documentation status, sexual orientation, race or ethnicity.
- “All these cannot justify the violation of the human rights of everyone including asylum seekers, refugees and migrants. It is time we all stand in solidarity and further our collaborative efforts in fighting against discrimination, prejudice and all forms of social injustice. Our citizens need to know that only peace unifies and uplifts our African Heritage that leads to economic, social and political development,” argues CoRMSA
- CoRMSA calls on all South Africans and relevant authorities to use Heritage month to advance social cohesion, nation building and a shared identity.
